

**CHRONICLE™**  
COLLECTIBLES

OUR STORY • OUR VISION

**Six years ago, we started with a simple mission of creating iconic pop culture collectibles from film franchises that we loved and felt were being underserved.**

**We began by producing three-dimensional, physical representations of fan-favorite props and characters with a realism that is equal parts lifelike and familiar.**

Over a remarkably short time in business, our attention to detail, high standards, and passion for pop culture has made us fan favorites with collectors around the world.

Release Date Winter 2020

**Borderlands 3 Bunny Bomb Holiday Ornament**  
Release Date Winter 2020

**Terminator: Genisys Endo Skull Holiday Ornament**  
Release Date Winter 2020

# Our Process

Creating an iconic product line that will stand the test of time in a fan's collection is no simple feat. We do this through a five stage process: Design, Development, E-commerce, Production and Celebration.

# Design

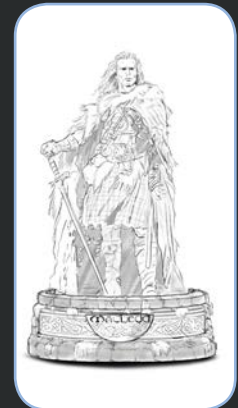

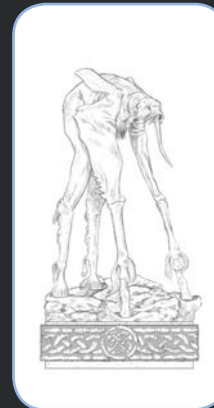

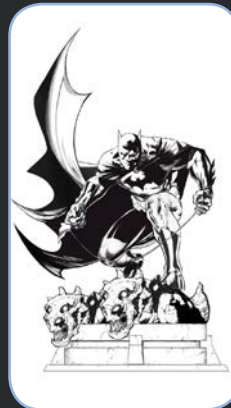

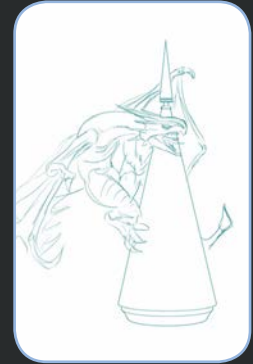

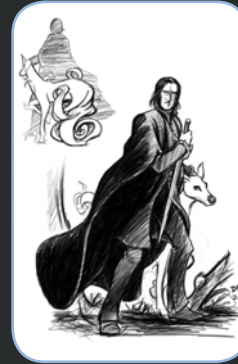

Development

E-commerce

Production

Celebration

Each project kicks off with an analysis of a character's key features, assets, and story. These unique details are used to develop a variety of concepts for products that visually tell the iconic story of our character through a physical sculpture. These designs aid the team with defining complexity, time, and costs for the development and production stages.

Design

# Development

E-commerce

Production

Celebration

Once a design has been approved by both the Chronicle team, and our licensing partners the project moves into development. The concept comes to life through a fascinating prototyping process of digital and traditional fine art techniques. Chronicle artisans work together closely in a modern renaissance studio combining the magic of 3D digital sculpting and printing with traditional handcrafted modeling and painting techniques used for generations.

Design

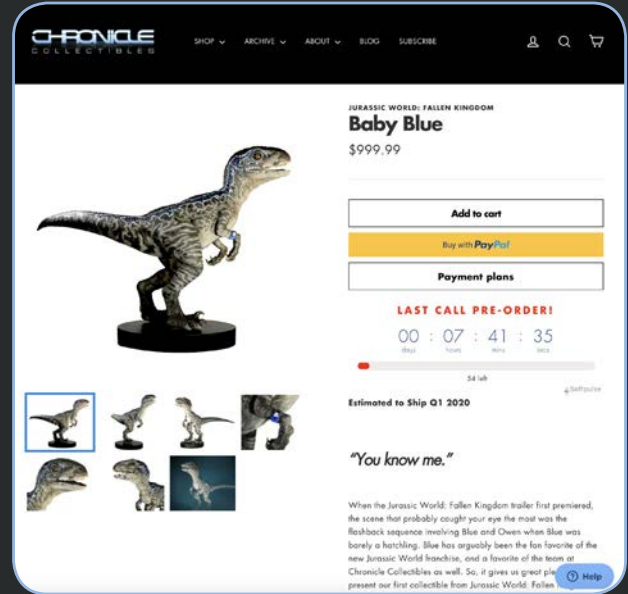

Development

E-commerce

Production

Celebration

We develop a multi-faceted sales program for our online store and across our network of wholesale distribution partners world-wide. This program consists of photography and graphics, as well as web and social media content, curated by our in-house creative team. Our experienced customer service team is at the ready to answer questions and concerns along the way.

Design

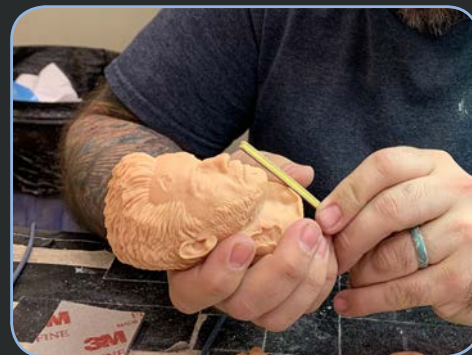

Development

E-commerce

Production

Celebration

A single handcrafted prototype becomes many. By working closely with our factory partners we maintain our high quality standard. We review multiple samples throughout the production process, checking sculpture integrity, paint applications, engineering developments, and packaging designs.

Design

Development

E-commerce

Production

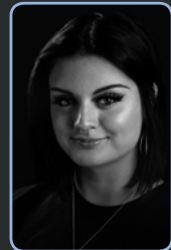

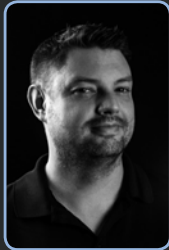

Celebration

When these new works of art are complete, we work quickly to ship them safely to homes around the world. We get to celebrate with our fans by sharing the connection. It's a special feeling we get from fans who've made a connection with their favorite characters and moments through our collectibles.

# Thank You...

...from all of us at Chronicle Collectibles.
